September 6, 2017

Dear Boaters,

What a summer we have had. Whether it was the great music on the deck, the long sunny days or the perfect breeze to sail, after a rainy spring, this summer turned out to be great. Though there is still plenty of time to enjoy boating, it is time to start thinking about the off season.

Enclosed is the winter 2017-2018 storage and winter worksheet. Please take the time to read this carefully. There is key information within the forms that could delay service on your boat if not filled out completely.

As a reminder, our talented crew maintains and services all indoor boats. This includes but is not limited to winterizing, varnishing, waxing, bottom painting, and many other specialized projects. "Do it yourself" work is permitted but only for outdoor storage boats and with yard permission.

If you plan to keep your dinghy with us please make sure that everything is labeled and securely fastened to the boat itself. With the high number of dinghies that we store it is crucial that you follow these guidelines so to not have any items missing in the spring.

In addition to the contract for the marina you will find Maine Canvas and North Sails winter service request forms attached. Please check the appropriate boxes for your washing and storage needs.

As I am sure you have noticed, every year the yard seems to have more boats. We are very fortunate to be able to accommodate all of you. What makes this complex storage task possible is your prompt return of paperwork. The winter storage contract puts you on our hauling schedule.

We hope that you have enjoyed the summer boating season and that you can take full advantage of the wonderful fall season ahead. If there is anything that we can do to help make this possible don't hesitate to ask!

Very Respectfully,

John S. Brewer
President
